

# How do I access my child's google classroom?

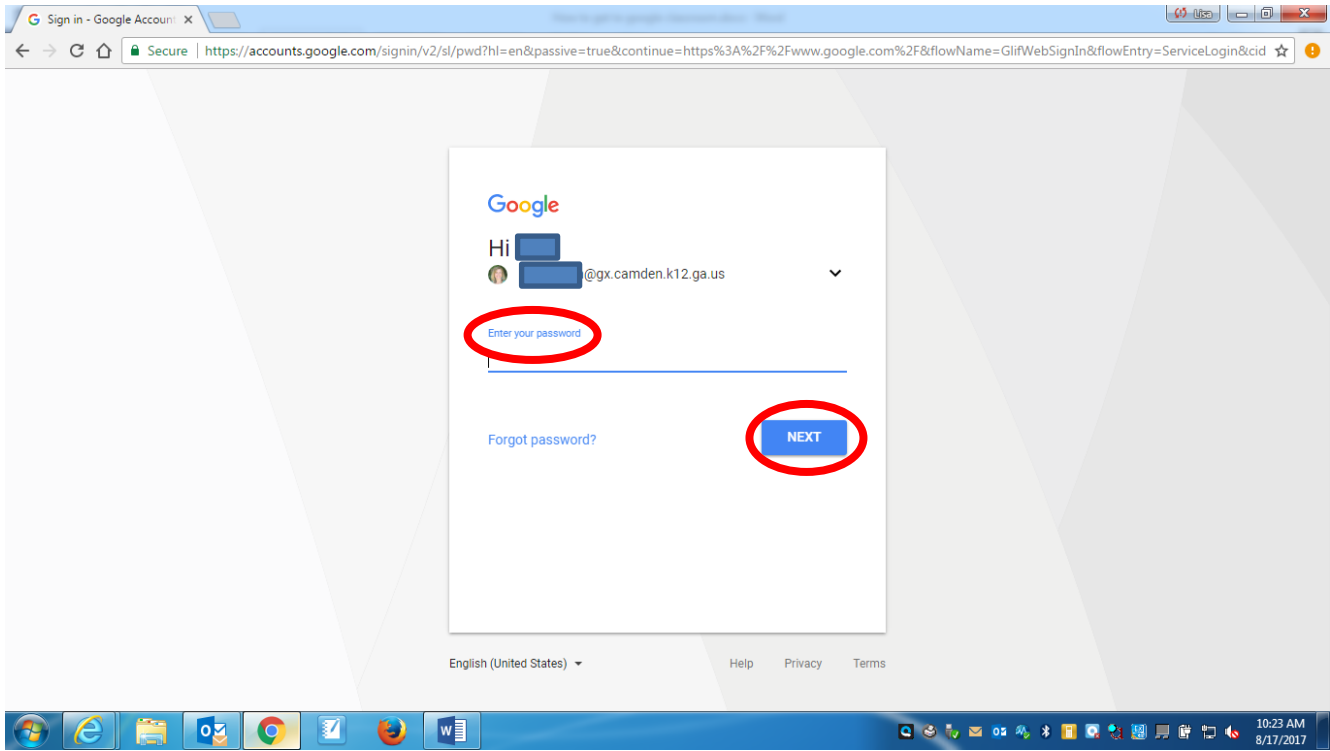

1. Go to [www.google.com](http://www.google.com) and click sign in in the top right corner.

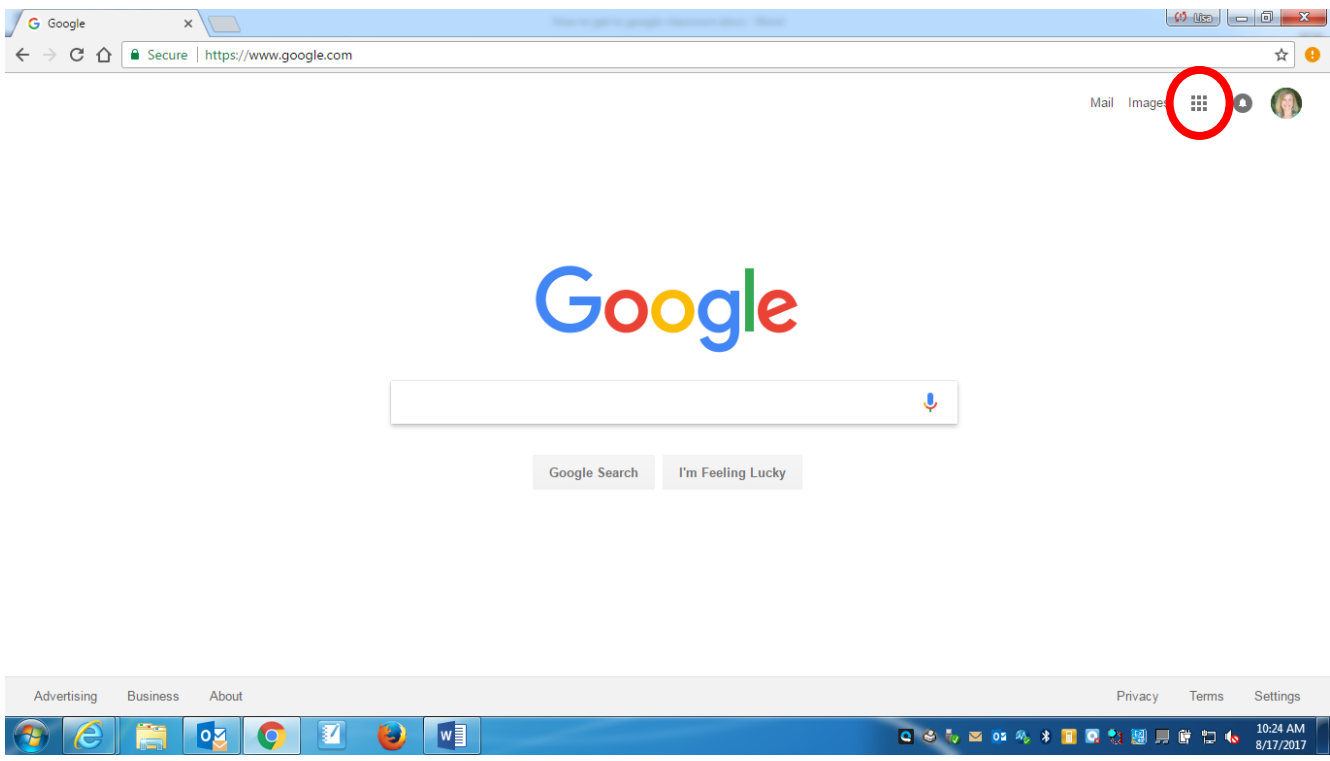

2. Enter your child's email address, which is [firstname.lastname@gx.camden.k12.ga.us](mailto:firstname.lastname@gx.camden.k12.ga.us)  
For example Sally Carter would be [sally.carter@gx.camden.k12.ga.us](mailto:sally.carter@gx.camden.k12.ga.us) (there are occasional exceptions if your child has a long name, or the same name as another student in the district – your child should know the username, it is the one they use to login to their chromebook daily, but ask your child's teacher if you're not sure). Click Next.

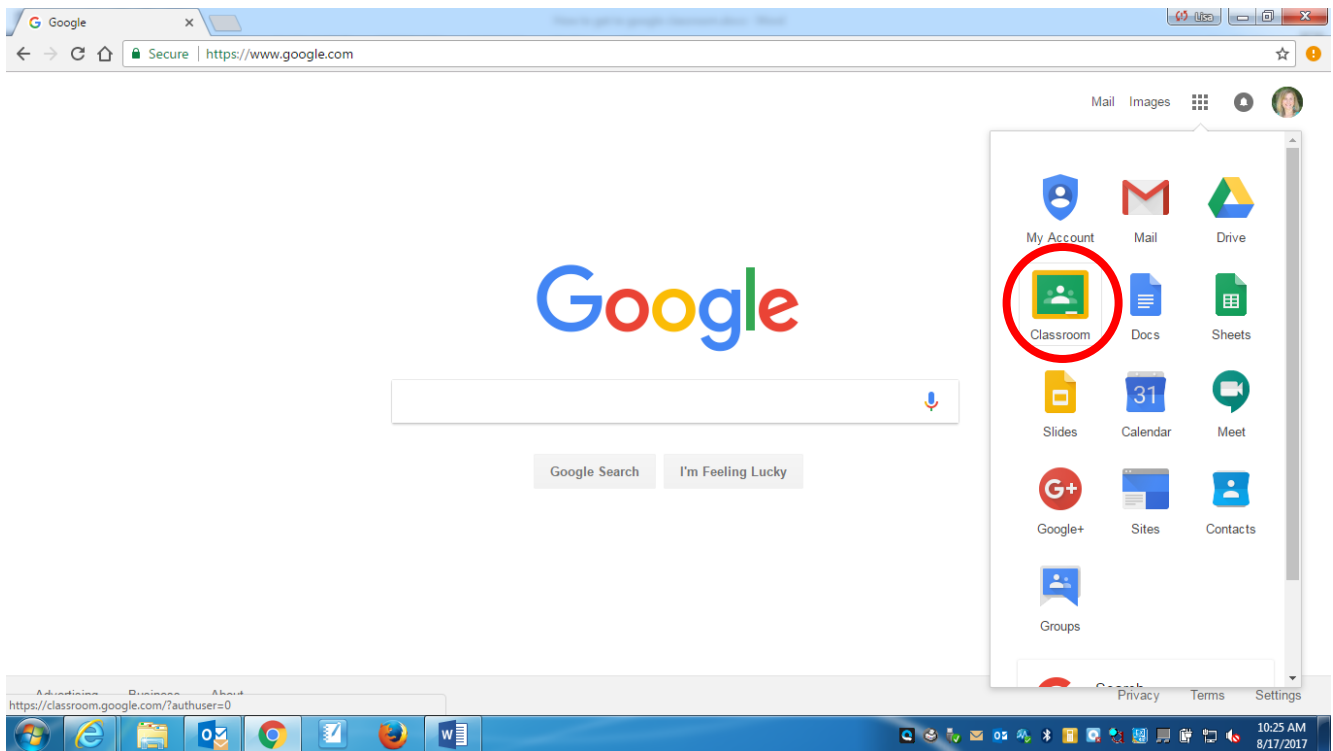

3. Enter your child's password. This is the same password they use to login to their Chromebook every day. Your child should know this password well, but if not contact his/her teacher. Click Next.

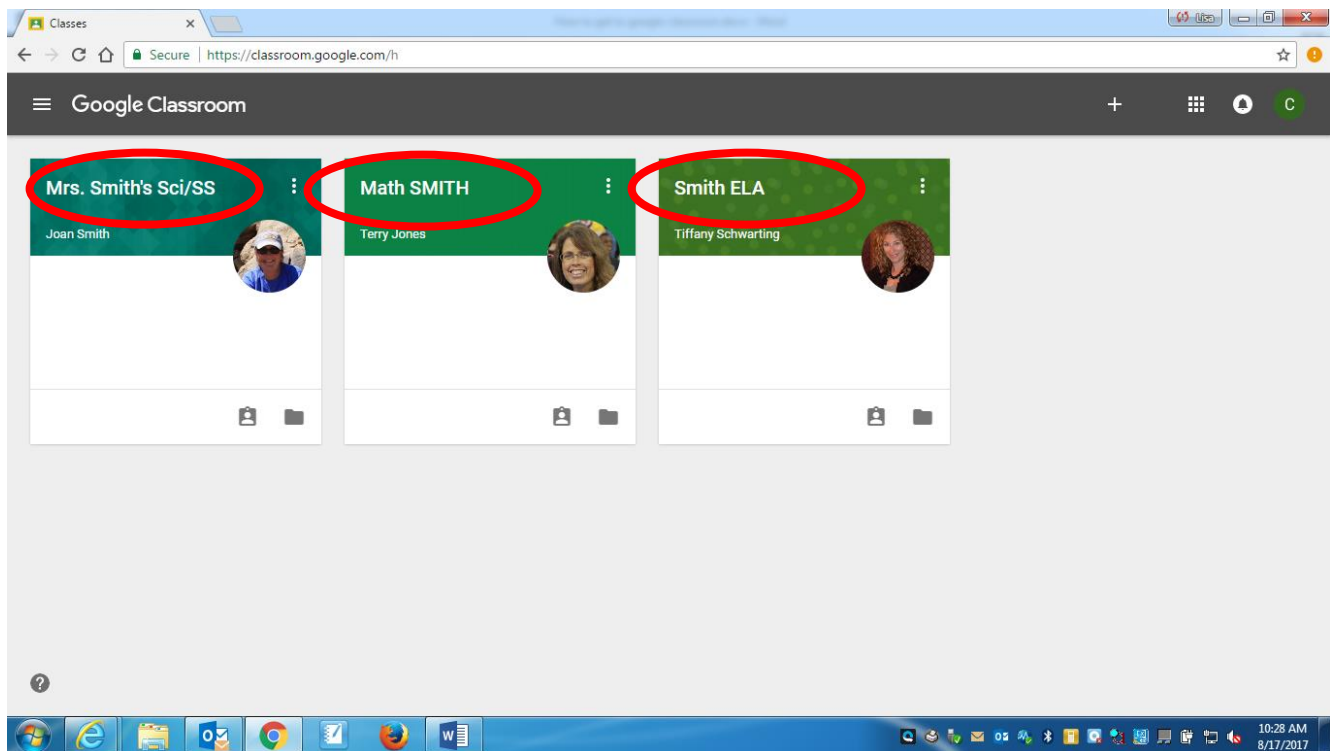

4. Click on the google apps icon (9 little squares) in the top right corner.

5. Click on the classroom app. Here you can also access your child's Mail, Google Drive, and Google Docs.

6. On this screen, each of your child's classes will be displayed. You can click on the class name to open the assignments from that teacher.

7. You can click on the assignment name to open it, or the word "Open".
